

ENVIRONMENTAL POLICY

Purpose and Scope

Bendpro recognizes its legal and moral obligations to reduce the impact of our operations on the environment. We are committed to establishing measurable objectives and targets, and continuously improving our environmental performance.

Environmental Framework for achieving objectives.

- Conform to Environmental Acts and Regulations, applicable Codes of Practice, and Industry Standards; by actively researching and receiving email updates of relevant issues and changes.
- Comply with the requirements of AS/NZS ISO 14001:2016; and promote continuous improvement by encouraging employee participation.
- Commit to reduce waste by evaluating and improving operations and processes to make them more efficient and environmentally friendly whenever it is reasonable to do so within the context of our organisation.
- Actively promote recycling with employees and daily activities.
- Commit to reduce emissions by actively identifying and implementing (where practical) improvements to minimise the production of greenhouse gases through our everyday activities.
- Source and promote a product range (where practical) to minimise the environmental impact of production, installation, and distribution.
- Identify and implement (where practical) improvements to minimise consumption and promote efficient use of energy, water, paper, and other material inputs.
- Strive to reduce the amount of waste produced whilst maximising the amount we reuse and recycle.
- Communicate environmental issues and improvements to all staff and stakeholders and encourage participation and feedback.

This Policy will be communicated throughout the organization.

This Policy will be audited and upgraded when required for continuous improvement. All managers and workers are expected to work cooperatively to effectively implement this Policy.

General Manager: Allen Ascough Date: 01 December 2023
